BRITISH BEGIN ANOTHER DRIVE

Launch Attack Along Front Thru Arras Sector, Making Progress at Some Points.

CHARGE FRESNOY TRENCHES

[By Associated Press Leased Wire.] London, May 3.—The British began another attack this morning. The war office announced that progress is being made.

A number of strong positions already have been captured by the British. The announcement follows: "Heavy fighting is taking place all along the front from the Hindenburg line south of the Senne river to the Arras-Vimy road. Our troops are making progress and have already captured a number of strong hostile positions."

Attack Before Dawn. The British attacked in the darkest hour preceding dawn this morning, striking at the German positions west of Arras. The infantry assault was delayed until half an hour after the half moon had gone down. The night was clear and starlit, and the almost ceaseless flashing of guns gave definite shape to the shadowy outlines of the salient points.

The correspondent says the attack was directed to the taking of certain points of considerable importance and to improving the British line. The British desire to gain a complete mastery of dominating positions whence their artillery would be able more effectively to devastate the fresh troops which the Germans continue to throw in.

Tornado of Fire. There was the usual preliminary tornado of fire from weapons of all calibers, and then the equally familiar creeping barrage, working with absolute punctuality as the order to the men to go forward was passed forth simultaneously down piles of trenches.

Thousands of crouching figures formed into regular waves for the advance. Then came the inevitable deadly battle of machine gun and rifle fire and the crashing of exploding bombs as the enemy reached the parapets of the first enemy trench. As the result obtained the correspondents adds, reports thus far are vague but the British made progress in several directions, toward Fresnoy and Chérisy and also toward Arras, which is a point on the Hindenburg line.

Counter Attacks Heavy. The Germans counter attacked heavily near Gavrelle and Loos. Those onslaughts were met with satisfaction by the British gunners.

The new British attack takes in virtually the whole of Arras, which was begun on Easter Monday and evidently is a major operation. It is the fourth great attack which the British have made along this line. The attacking front is about twenty miles in length.

Paris, May 3, noon.—The French made an important gain on the Champagne front last night, reducing the position which was still being held by the Germans in the new line east of Montaubert and more than 200 men were taken prisoner. There was active patrol fighting on the Chemin-des-Dames line.

Brits Hit Hindenburg Line. British Headquarters, May 3, via London, 2:55 p. m.—From a staff response to the Associated Press. Another of the continuing British attacks was launched against the Germans early this morning. Hard fighting is in progress under a warm spring sun. There has been rain for more than 12 hours and the battlefield is very muddy.

British reinforcements are being moved along the roads toward the front, look like millers under heavy layers of chalk-white powder. Reports from the battle front are as yet meager, but it appears that satisfactory work on a wide front. At Bullecourt the British took another step into the Hindenburg line just north of its point of junction with the Drocourt-Queant switch.

Good progress was also reported early in the direction of Chérisy and Fresnoy, which was captured last Friday by the Canadians. These two villages having been looped about with intricate trench fortifications, some of the strongest points on the Marconet-Oppy-Gavrelle line running slightly southward from Lens to the Scarpe and being one of the last of the older fixed positions protecting the Drocourt-Queant switch to the Hindenburg line.

Some Heavy Fighting. The Germans have delivered strong counterattacks at several places, principally against Gavrelle and toward Loos. At all the points attacked and counter-attacks heavy fighting is proceeding.

In the meantime the British are taking full advantage of the long spell of good weather, are continuing their relentless offensive during the day and night. Within three days many enterprises behind the German lines. The German soldiers plainly dislike the continuous pressure.

War Situation

New breaches in the already badly battered German line on the Arras battlefield are being made by the British in a heavy assault launched on a 12-mile front today.

Striking in 2 1/2 miles south of Lens, on the Arras-Vimy road, General Haig's troops drove at the Germans all along the line as far south as "Cronelles on the Senne river, 1/4 mile southeast of Arras. Virtually the whole front of the attack at the beginning of the Arras battle on April 9 was thus under assault by the British infantry.

The attack came at a moment when it seemed as if a deadlock had been established, for a time at least, because of the heavy reverses which had been brought up by the Germans and the strong resisting powers they were displaying. Of the initial success of the renewed offensive the official British report speaks positively, recording the capture of a number of strong enemy positions.

While not pressing ahead on any wide front, the French along the Aisne sector and in the Champagne are giving the Germans no rest, employing their artillery vigorously and picking out a section of the enemy line here and there.

There may be significance in the reports of activity which are coming from the Verdun sector and the line to the southeast of it. There has been considerable patrol fighting in these regions and especially active artillery work is in progress in the sector of St. Mihiel, where the Germans have successfully maintained a deep salient since early in the war.

The correspondent says the attack was directed to the taking of certain points of considerable importance and to improving the British line. The British desire to gain a complete mastery of dominating positions whence their artillery would be able more effectively to devastate the fresh troops which the Germans continue to throw in.

Tornado of Fire. There was the usual preliminary tornado of fire from weapons of all calibers, and then the equally familiar creeping barrage, working with absolute punctuality as the order to the men to go forward was passed forth simultaneously down piles of trenches.

Thousands of crouching figures formed into regular waves for the advance. Then came the inevitable deadly battle of machine gun and rifle fire and the crashing of exploding bombs as the enemy reached the parapets of the first enemy trench. As the result obtained the correspondents adds, reports thus far are vague but the British made progress in several directions, toward Fresnoy and Chérisy and also toward Arras, which is a point on the Hindenburg line.

YANKEE GENIUS TO SAVE ALLIES

German Sea Terror to Be Combated by American Brains and Money.

MEANS MUCH SELF-DEMI

[By Associated Press Leased Wire.] Washington, May 3.—While members of the entente nations share the alarm of America's officials at the growing inroads of the submarine menace, they do not regard the situation as in any sense fatal. It means, in their view, a period of very great self-denial and further restrictions, but they do not credit in the least any opinion that it is certain to lead to starvation or the loss of the war. They are counting on ships, men and money from the United States and possibly American inventive genius to outwit the U-boat terror.

German Crates Remains Hidden. Critical as the allied situation is made to appear, allied diplomats say it is as nothing to the insuperable difficulties of Germany almost entirely hidden under the censorship. It is possible, they say, that the German U-boats are carrying 18,000 cattle in the central empire are correct, but the distribution of these and other supplies is almost impossible when Germany's military necessities are so seriously overcrowding the railroads.

Need of Ships Greatest. That the submarine menace and ways to combat it by increased shipping, freight selection and naval cooperation, is the main interest of the British mission because certain today from many different sources. The issue was focused by Premier Lloyd George's statement in parliament recently that the need was for ships and still more ships. Lord Percy's explanation here that destruction was "outraging" construction; and declarations of Secretaries Lansing and Lane that the submarine situation is grave.

It is now evident that other matters before the British commission, however vital, are being subordinated. The British naval officers in coming to this country hoped to get a considerable number of small boats to use as submarine chasers, but they have been disappointed to discover that the few available are needed here. The British shipping experts, however, have found encouragement in the emergency efforts of the shipping board and the availability of many German ships.

Would Cut Freight. Proposed curtailment of non-essential freight now being carried to Europe would give increased tonnage for needed supplies. The American government has a chair not only for receipt imports as the British already do, but to impose export restrictions, authorized by the bill now pending in congress.

One of the greatest uncertainties of the situation is a total ignorance of the number of U-boats Germany is building. Admiral de Chair has estimated this at two or three a week, but many officials here believe it possible to turn out many more on standard plans.

France Needs Coal. Means for transporting American coal to France and thus releasing for other service ships used to carry it from England is one of the most pressing problems laid before American officials by British members of the French and British commissions here.

The question has caused the council of national defense to consider establishing more direct government control over the coal industry and the subject is being investigated by the Embassy of Chicago, for the council.

France has large contracts for supplies in the United States which cannot be transported because of the lack of shipping and railroad facilities. The American government control transportation in this country that goods urgently needed by the Atlantic seaboard more promptly.

Food Situation Grave. New York, May 3.—The German blockade has made the food situation in Belgium and northern France one of extreme gravity. The mortality among adults in the industrial districts having multiplied by three during March and April, according to Herbert C. Hoover, who arrived here today from Europe on an American ship. Mr. Hoover said the world is immediately to Washington to take charge of the government's food control program.

"Like every good American, I have come over to do my share," Mr. Hoover said. "My new duty is too big a proposition to discuss at this time."

At the dock Mr. Hoover was met by Baron Cartier, Belgian minister to the United States, who said he came from Washington to express his "thanks and reverence" for the Belgian relief commission's accomplishments in his country.

"The food situation in Belgium and northern France requires every effort we can make," said Mr. Hoover, who does not intend to relinquish his position as head of the Belgian relief commission.

MORE RAIN TONIGHT OR FRIDAY, FORECAST

INCREASING CLOUDINESS AND CONTINUED COOL WEATHER.

The weather forecast for Chicago and vicinity: Increasing cloudiness, followed by rain late tonight or Friday, continued cool; fresh easterly winds. Sunrise, 4:44 a. m.; sunset, 6:51 p. m.; moonset, 3:03 a. m. Friday.

Temperature for 24 hours preceding 12 o'clock, today: Maximum, 57; minimum, 34; mean, 45; normal for the day, 55; deficiency 10.

Beacon Lights

JOHN'S RHAPSODY. Should go back to the country. Life in the open country lacks the many and stimulating social contacts and relations which make life in the city so attractive. But life in the country, with their ever shifting web of growing and living things, has a beauty that far exceeds the gilt and polish of parks and boulevards.—J. W. London.

TO TAKE OFF 4,000 PASSENGER TRAINS

Washington, May 3.—Curtailed of passenger train service and shipment of the country's entire output of rolling stock and rails to the allies were forecast today by Daniel Willard in a speech before the national defense conference of governors and representatives of state defense councils.

Already Mr. Willard said the federal general railroad board is working on a plan for reorganizing the country's railroads at war, he said, have discontinued passenger schedules entirely but the American government hopes to bring the railroads to their highest point of efficiency by eliminating duplication and reducing the number of passenger trains as far as possible without inconveniencing the public.

Out Passenger Service. Of 4,000 passenger locomotives in the United States the railroad board hopes to release 4,000 for freight trains.

It is vital that France and Russia have locomotives and cars," said Mr. Willard. "We will have to furnish them. How can we do it? We can do it by getting along with what equipment we have and by putting into force measures of greater economy."

BRAZIL A STEP NEARER WAR WITH THE TEUTONS

[By Associated Press Leased Wire.] Washington, May 3.—Dr. Laure Muller's resignation as foreign minister of Brazil is expected to be accepted by the Brazilian cabinet today, according to official notification. His withdrawal from the cabinet has not reached the state department nor the Brazilian embassy early today, but the unofficial report points to his immediate departure.

WAR LOANS POURING IN MILLION DOLLARS AN HOUR

Washington, May 3.—Subscriptions to the first \$2,000,000,000 offering of bonds of the United States war loans poured into the treasury today at a rate of more than a million dollars an hour, while approximately 3,000 banks in every section of the country simultaneously were taking subscriptions over their counters. There was every indication that the huge issue would be far over subscribed.

URGING EMBARGO

Washington, May 3.—The food situation was foremost again today in the senate during debate on the espionage bill's provision to authorize the president to embargo exports. Immediate necessity of an embargo on tin plate, for cans needed in Germany, was urged.

The War Spirit

Warren Freshour, The Beacon-News bowler and ball player had confided his intention of enlisting to fellow workers for several days but feared his mother might object as he was only 17. Tuesday night, he heard his mother say, as she laid down her head, "Doc," as he is commonly known, thereupon popped the question he had been withholding and his mother signed his papers last night. He left for Chicago today. A "chapel meeting" was called by printers before "Doc" left and he was given a remembrance and wished good luck.

William H. Dills who enlisted at Aurora this morning is a former soldier, seeing three years of service in the Philippines. Dills has been working for the Burlington. He was formerly a member of company "D," 1st Infantry. He comes from Defiance, Ohio.

Ployd Keck, an East high school boy, has enlisted in the artillery division of the regular army.

The Stars and Stripes were hoisted over another building last night, when Boy Scouts pulled the flag to the top of the new flag pole at the top of the building. The flag was purchased by employees of the factory, while the pole was bought by the company. John Harrel acted as master of ceremonies. The flag was raised with proper ceremony. The Mooseheart boys' band furnished the music for the occasion and the Mooseheart band played "The Star Spangled Banner."

West High contributed two more recruits to the nation this morning when Bernard Wilkinson, a Junior at West High and Ivan Stephens a graduate of 1916, went to Chicago to enlist. Wilkinson made the trip yesterday but was unable to complete his examination. If successful today, he will be sent to the barracks tonight.

Two machine guns of the Lewis type, the same as those used by the United States army, were set up at Riverbank Villa, the home of Col. George Pabian, at Geneva, today. Sgt. William Farnum, of the Third regiment machine gun company, went to Geneva this afternoon to set up the guns and instruct Sergeant Tustin, Colonel Pabian's military trainer, in their use.

"At noon today all recruiting records for Aurora had been broken with 25 men enrolled since Monday morning. The recruit was enlisted last night and the more joined the colors this morning. Corp. A. J. Polak, recruiting officer here, have 40 men enlisted by the end of the week."

Glenn Lawrence and Norman Shuts of Geneva have enlisted in the regular army engineering corps.

Henry Kintz and Clyde Swanson of St. Charles enlisted in the regular army and today for Jefferson barracks, St. Louis.

John A. Cheney, a veteran of four American wars, is one of the most thoughtful men in the present war. He has a wound in the leg which he received in the first war in which he served. The only hurt he received came when a horse kicked him in the face after he returned to Aurora.

The members of the Loyol Order of Moose who go to war will be put on the non-active member list. If they desire, Rodney Brandon of Mooseheart announced today. Ten thousand of the Canadian soldiers now at the front in Europe are members of the L. O. M. C.

Geneva is to have a patriotic demonstration tomorrow evening. Rodney Brandon of Mooseheart and Capt. Joseph of Elgin will be the speakers.

Pierce Vandercreek of Lombard, formerly of Geneva, a reserve army officer, has been called to duty.

Members of the Third regiment machine gun company will be given the federal flag at the company Friday night. Sgt. Charles and Sgt. William Farnum have enlisted seven Aurora men in the company. They are Henry Vitor, 25 years old; Ed. Karsen, 19 years old; T. A. Edwards, 25 years old; Harry Hill, 24 years old; Donald Duffell, 23 years old; Charles Lawrence, 25 years old. Duffell is a chauffeur and will drive one of the machine gun trucks. An effort is being made by Lieutenant Carr to recruit his company up to the full strength. 53 enlisted men and officers, with Aurora men. He wants experienced automobile drivers and mechanics.

JOFFE AND VIVIANI CHEERED BY CONGRESSMEN

Washington, May 3.—The French mission was received on the floor of the house today with roars of cheers and cries of "Vive la France" from the floor and galleries.

CRUSHED WHEN AUTOS COLLIDE

Alvin Sullivan Seriously Hurt in Most Unusual Accident Last Evening.

WITNESSES' STORIES DIFFER

Alvin R. Sullivan, 22 years old, an automobile mechanic was caught between two automobiles in a collision opposite Mrs. Foster garage in South LaSalle street last night. He was killed.

Sullivan was taken to St. Charles hospital in the police ambulance. He was injured so badly that it was believed he could live but a few hours. His father and mother, Mr. and Mrs. Frank Sullivan, 18 North East street, were called to the hospital. The mother collapsed. The injured man is her only son.

It was about 7:30 o'clock when Sullivan parked his car and got out to light the gas light. The Pecca machine was parked about 12 feet back from the curb. Foster was in the front seat. Pecca started his engine and turned out from the curb. About this time the Ohlhauser truck, driven by Steve Testin, came along and there was a collision. In the mixup the Pecca machine smashed into the car ahead and caught Sullivan. The force of the collision between the Pecca and Sullivan machines was so great that Sullivan's head was jammed against his own machine so hard a big dent was made in the body.

"My wife and I were alone in the car," Pecca said at police headquarters after the accident. "I was parked about twelve or fifteen feet back from the curb. The Pecca machine was parked about 12 feet back from the curb. Foster was in the front seat. Pecca started his engine and turned out from the curb. About this time the Ohlhauser truck, driven by Steve Testin, came along and there was a collision. In the mixup the Pecca machine smashed into the car ahead and caught Sullivan. The force of the collision between the Pecca and Sullivan machines was so great that Sullivan's head was jammed against his own machine so hard a big dent was made in the body."

"I believe Pecca is to blame. Before he started he did not look around to see if another car was coming and he did not put out his hand as a signal. I was sitting in the truck at my place of business but we were waiting to paint and overhaul the truck before putting it in. Testin was driving slow and careful and the accident would have happened to any other driver."

Witness Account. George Dickson, a farmer residing near Yorkville, made the following statement: "I was driving south in LaSalle street and was the first machine back of the Ohlhauser truck. The latter machine was running about twenty miles an hour. Pecca started out from the curb. I would say from the rear of his machine was about four feet from the sidewalk when the Ohlhauser truck came up. The Ohlhauser machine crashed into the front of the Pecca machine and there it stayed against Mr. Sullivan's car. As soon as I got out I looked for the license number on the Ohlhauser car but all I could find was a 1916 license on the front end."

Sullivan bought his machine about two weeks ago and was driving it when the accident happened. He is an expert driver and mechanic, being formerly in the employ of the Coats company.

Mexico City, May 3.—A bill has been introduced in congress giving President Carranza extraordinary powers to deal with the financial situation in Mexico.

United States Ambassador Fletcher has issued a statement to the press expressing his belief that the inauguration of President Carranza is a guarantee of the peaceful rehabilitation of Mexico.

To Launch Good Ship "Hospital Fund"

Everything is in readiness for the launching tonight of the Aurora Hospital fund. The good ship "Hospital Fund" will slide down the river at 6:30 o'clock dinner in G. A. R. hall, for campers. The G. A. R. hall is the campaign headquarters.

General Chairman Fred G. Adams, who is always brimful of wit and ideas, will preside as toastmaster at the evening tonight. Among the speakers will be Mayor Harley, Mrs. J. T. Mason, William George and the Rev. F. S. Brandt.

The atmosphere among the workers hums with enthusiasm as the hour approaches to go into the field for the subscriptions to be won in seven days. Every corner of the city will be covered by the valiant teams of men and women.

NEW DRIVE ON SCARLET WOMEN

At midnight last night Sheriff Becha Richardson called at a number of red light resorts in the neighborhood and which opened up again a few days after the city election. "You see," the sheriff said, "this comes if you are not out you will be thrown into jail and the owners of the property will be held with you." The resorts were closed by Sheriff Richardson in February. He made the rounds February 5, with Chief of Police McCarty, giving the women until February 12 to move out. The houses were dark for some weeks after a windy celebration the night of February 12, but they lit up again a few days after the election. April 4, four were found going last night, compared with seven which were in operation when the sheriff first closed them.

Keepers given a final warning last night were: "Peggy Curtis," Dearborn avenue, "Maud West," Indian avenue, "Dolly Gilberts," Indian avenue. Unknown woman, running a place in Dearborn avenue.

Under the Katz Adams act if the resorts are not closed owners of the property may be fined and the houses closed to all renters for a year.

Complaint that the red lights were hecoming again were made to the sheriff by persons residing in the neighborhood. Last night a man lying in the vicinity of the resorts was incensed when his two daughters who sat on the front porch were accosted by men who were apparently scouting for the "bad lands."

He called the sheriff and demanded immediate action.

Investigator. An investigator from the office of Assistant State Attorney Amell arrested in North Broadway last night at 11:30 o'clock on a charge of carrying concealed weapons, Louis Bank, keeper of a Roumanian boarding house, complained to the police that a man was prowling about his home and the police went out and got the supposed prowler. In the loaded gun was found in his pocket. He is being held pending investigation. He is an employee of the Burlington shops.

STATE BANKS ENTERING FEDERAL RESERVE SYSTEM

[By Associated Press Leased Wire.] Washington, May 3.—Formal announcement of the probable entry into the federal reserve system on a large number of state banks within a short time was made today by the federal reserve board.

TO CLEAR THE WALKS OF GASOLINE TANKS

Chief of Police McCarty has been instructed by the mayor to clear the walks of all gasoline tanks. The presence of the tanks on the walks is a violation of the sidewalk obstruction ordinance, the city council has ruled.

Practically all of the garages in the city have tanks at the edge of the walks where machines can drive up for gasoline. When the "clear walks" ordinance was passed by the council two years ago, the aldermen agreed to allow the gasoline tanks to remain at walks edge.

DELAYED REFORMS AROUSE GERMANS

This Is Explanation by Socialists of Industrial Unrest Prevailing Throughout Empire.

Public Becoming Suspicious Because of Kaiser's Reluctance on Peace Terms.

[By Associated Press Leased Wire.]
Copenhagen, via London, May 3.—Such German newspapers as are now permitted to reach here, although evidently carefully selected for the absence of military news or any information in regard to the strike movement, indicate that the campaign against Chancellor von Bethmann-Hollweg is again in full swing. The conservative, although insisting as usual that the other parties observe a political truce in the interests of the fatherland, have adopted and published a set of resolutions sharply attacking the chancellor and denouncing the government for weakness and vacillation on the peace question and in dealing with the strike agitation. The resolutions express grave grief and concern at the steadily growing influence of the socialists, whose peace-making efforts are declared to be leading Germany to the brink of ruin. Apparently this attack was timed to coincide with the opening of the Reichstag and it is significant that the resolutions are endorsed by the free conservative wing under Baron von Sydow. Baron von Sydow has hitherto been far less an extremist than Count Westarp and Herr von Heydbrand, leaders of the regular or junker conservatives.

New Government in Crisis.
The Berlin correspondent of the Hamburg Fremdenblatt, in a long survey of the situation, declares that the political life of Germany is now passing through an era of strife and differences of opinion on external and internal questions, which daily grow more lively and of broader dimensions. The correspondent says that dissatisfaction with the government's policy is growing in all directions and that its reluctance on peace terms is being used to sharpen mutual suspicions and the antagonism between the parties. The socialist leaders, he continues, do not hesitate to explain and justify the latest strike movement on the grounds of the delay in reforming the Prussian franchise. On the other hand the pro-German reactionaries stop at nothing to prevent the formation of a majority party capable of realizing the needed reforms in the body politic.

The writer declares that the national liberals are acquiescing with the conservatives and that the opportunist clerical center is intent only on a preservation of its influence. His picture of the situation at the opening of the Reichstag is, in other words, one of general strife in which each main body is against every other, a condition promising an illuminating parliamentary discussion on all the questions in dispute. This condition of affairs probably explains the decision of the socialists, who

THEY URGES EARLY WAR ON HOUSE FLY

Reader of Beacon-News Submits Valuable Article Written by Dr. A. M. Corwin.

Requires but Fifteen Days of Warm Weather for One Fly to Produce 2,000 Others.

Believing that there should be an early attack on the enemy house fly, a Beacon-News reader sends in the following article from a medical journal written by Dr. A. M. Corwin:

"Soon the south winds will rout old Boreas in their seasonal fight. The smile of vernal sunshine will warm the earth. Spring rains will wash the face of nature, and the young year will don its dress of green and the air will be filled with sweet perfume. What then?"

"Mr. and Mrs. Fly, wintering with some hundreds of careless householders, will respond early to the invitation of course. They will sall forth to hunt a rich measure pile of rotting garbage, a heap of rotten refuse. Mrs. Fly will lay about two thousand eggs in one of these choice spots. In a few days, as many maggots will hatch and worm into the ground for the pupa stage.

Ten days later, young flies will emerge, ready for business. This whole cycle will require only about fifteen days.

"And the city will be a-buzz with the swarms of the special order (musca domestica), the hostile, heinous house fly.

"The fly is the nastiest insect extant. It breeds in filth, walks in it, bathes in it, eats it, rejoices in it. This would be right enough if it did not also love to associate with respectable humans.

"It enters the palace and the hovel, the hospital and the church, without knocking and without changing its clothes or its manners. It is no respecter of premises or persons.

"The tale of its crimes against humanity will never be told. The deaths it has caused are credited to the germs it carries to the patient, while it, the real criminal escapes. Typhoid, tuberculosis, dysentery, infantile diarrhoea, diphtheria, smallpox, scarlet fever and various other infections may be carried by it from man to man.

"Get very busy then, oh man and woman and child! Put those screens on doors and windows early. Clean up the back yard and keep it so. Watch your neighborhood for

DR. LAURO MULLER QUILTS THE BRAZILIAN CABINET

His Opponents Accused Him of Using His Influence to Prevent a Broadening of Relations Between Brazil and Germany.

Dr. Lauro Muller has been bitterly criticized in Brazil since the relations between the republic and Germany first became acute on the ground that he was pro-German in his sympathies.

His opponents accused him of using his influence to prevent a broadening of relations between Brazil and Germany, and demanded his resignation. Dr. Muller was first appointed foreign minister in February, 1912, and even at that time was attacked as being too friendly to Germany, an accusation apparently based, in part at least, on his German descent. He is one of the best known statesmen in South America and has made several visits to the United States.

Adolph Follis, one in minister to Brazil, was 20 years in the Brazilian government on April 18, 1912, and he handed over the care of German interests to the Dutch minister, and a special train was provided by the Brazilian authorities to take him and his staff to Uruguay.

He elected to leave Brazil by land on account of the failure of satisfactory arrangements to obtain a safe conduct from Great Britain and France for a voyage to Europe.

BREAD STRIKE END NEAR
[By Associated Press Leased Wire.]
Chicago, May 3.—Committee representing the striking bakers' union and their employers have agreed upon terms of settlement of the bread strike which has been in force here since Saturday and which seriously curtailed the bread supply of the city.

While the agreement entered into last night after many hours of conference at the office of United States District Attorney Charles F. Clyde is binding upon the employers, it must be ratified by the men on strike before it is effective. A ratification meeting will be held today.

KING IN ECONOMY PLEA
[By Associated Press Leased Wire.]
London, May 3, 12.50 p. m.—The appeal of King George to the public to economize in consumption of food was read at noon today from the steps of the royal exchange and of all town halls throughout the country. The lord mayor and sheriffs attended the ceremony in London and large crowds assembled.

DISTINGUISHED ITALIAN MISSION COMING TO U. S.

Representatives of every element in the political, scientific, business, and social life of Italy is the commission of distinguished Italians to land in America.

As officially announced by the Italian embassy the principal purpose of the Italian government in sending the commission is to convey to the American government and people some sense of the Italian people's deep gratitude to the Americans, not only for joining with the entente allies in the war but for the many acts of charity and benevolence extended to Italian soldiers since the beginning of hostilities.

Like the British and French commissions which preceded it, the Italians also have other motives in coming to America such as the extension to the American army and navy of the benefit of experience acquired by the Italian army and navy at the cost of much blood and suffering during the war.

Also the Italian commissioners are desirous of consulting freely with American officials regarding co-operation in dealing with shipping and subsistence problems and the adjustment of rates of exchange and other vital questions. Guglielmo Marconi, inventor of wireless telegraphy is a member of the commission.

COMPTON

Compton, Ill., May 3.—Mr. and Mrs. Benjie Holden and baby daughter of Princeton, are visiting relatives this week.

L. E. Bradshaw was in Chicago on business Wednesday.

Mr. and Mrs. Arthur Anglemire were Dixon shoppers Tuesday.

Stanley Banks was home from the University of Chicago over Sunday.

Mrs. Clifford Ogilvie and Miss Amy Eddy visited Mendota friends Monday.

Jesse Eddy and Fred Otterbach were in Dixon on business Wednesday.

Miss Lulu Schuckel of Dixon was a guest at the home of her parents, Mr. and Mrs. George Schuckel.

Orlie Clemmons of Rockford visited relatives here the past few days.

Arthur Anglemire was a Chicago visitor Wednesday.

Mrs. Leana Kern and baby daughter, accompanied by her mother, Mrs. Martha Beemer, will return to her home in Carmel this week.

Irving Bauer and Wilder Richardson are home from the state university for the summer. They will receive the full year's credit for doing farm work.

Mrs. William Carnahan entertained the Women's Christian Temperance union at her home Saturday afternoon after a very interesting business session. Dainty refreshments were served.

Keeping the gums healthy and the mouth sweet is very important to health; more teeth are lost through the loosening of the tissue that holds the teeth in place than from decay.

Dental science to-day demands that a tooth paste must keep the gums healthy as well as clean the teeth.

Senreco was formulated to meet this requirement. Hundreds of dentists are prescribing and using Senreco because they have found that it does measure up to that standard.

SENRECO IS A WONDERFUL CLEANSER.

In addition to its remedial properties Senreco is a wonderful cleanser; acts directly on the mucin film, the basis of tartar; leaves the mouth cool and clean-feeling. As some one has expressed it—Senreco gives one a new idea on mouth cleanliness.

Get a tube to-day at your druggists or toilet counter—enjoy the healthy, cleanly feeling its use gives your mouth and gums. Notice how brilliant white Senreco makes your teeth. It performs this two-fold service for you and yet costs no more than the ordinary, old-fashioned tooth paste that simply cleans the teeth and leaves a pleasant taste—25 cents for a large 2 ounce tube.

EVERY India SET

of the new

Encyclopaedia Britannica

in the entire world
that is still unsold

IS RIGHT HERE

in America

This great work, written and edited by the scholars of the world, is the accepted international authority on all branches of knowledge. Consequently, it has a large sale in every civilized country.

But of all the sets printed on the famous India paper, the only ones in the world still available are the few thousand now being sold in this country. And these will soon be all gone—a few weeks at the outside will see the very last set sold.

Thousands of sets were sold in Great Britain. Today it is not possible to buy the Britannica in that country except at secondhand and at whatever premium is put upon it.

Every set offered in Australia is gone.

South Africa is "sold out."

India is "sold out."

Japan, where more sets of the Britannica were sold than of any reference work in any language, is "sold out."

Argentina, which led all Latin-America in sales of the Britannica, is "sold out."

In Canada, the only sets that can be purchased must be sent from the United States.

You have the opportunity NOW to acquire one of these last sets of the Britannica printed on genuine India paper. But only for a few weeks longer at most—because the remaining sets are selling fast. Orders are coming in from all parts of the United States and Canada at an increasing rate from day to day.

If you let this chance pass, you will never have another to buy this world-famous work printed on the beautiful India paper.

It is NOW or never if you want a set.

More than 175,000 sets have already been sold in America—only a small fraction of the entire stock remains. You cannot delay and expect to get a set. Therefore we urge you to act immediately.

No one should buy the Britannica unless he is convinced that it would be useful to him. And in your case YOU are the one to decide how much this Library of Knowledge would help you in your business or work.

You can see sets and leave orders at:

M. C. Sawyer
Fox and Water Streets

just as it is helping tens of thousands of others.

This great work leads to the highway of Success—it not only gives you practical information on any subject, but it increases your efficiency, broadens your point of view, and employs the scope of your activities. It has a dollars-value because the knowledge it gives you increases your earning power.

You need the Britannica for a hundred and more reasons. You certainly owe it to yourself to find out all about it before you order it. And if you then decide that you want it printed on beautiful India paper, NOW is the time to buy it—at the specially attractive price at which these very last sets in the world printed on India paper are offered.

You are not asked to pay cash for it—only to get your order in at once, with a first payment of one dollar. You can pay for it in a limited number of convenient monthly amounts of as low as \$3 for the cloth binding. And you have the use of the books (29 volumes) while paying for them—they will be shipped as soon as your order is received.

But you must act promptly. Every day's delay lessens your chance to own one of these very last sets of the Britannica printed on genuine India paper. You must buy it NOW—or Never!

Those who cannot go to the store may use this Reserve Order form, which will be legally binding upon us to reserve one set for you, just the same as if you ordered it in person.

S. K. ROEBUCK AND CO., Chicago, Ill.

Please reserve me a set of the "Handy Volume" Encyclopaedia Britannica, printed on genuine India paper. I enclose \$1.00 as first payment. Send me an order form which I agree to sign and return immediately.

LIFE INSURANCE WAR RULE MADE

Premiums to Be Returned on Policy of Deceased, Unless Extra Premium Was Paid.

New War Clause to Apply to Policies Taken Out by Warriers Within Next Five Years.

A uniform life insurance war clause has been agreed upon by a special committee of the national convention of insurance commissioners and representatives of the life insurance companies. This has been sent to all insurance companies with an urgent plea that the war clause and other rules agreed upon be adopted without important change in the interest of uniformity. The war clause agreed upon is as follows:

"If within five years from the date of this policy the insured shall engage in military or naval service in time of war, the liability of the company in event of the death of the insured, while so engaged, shall be limited to the return of the premiums paid hereon, exclusive of any extra premium paid for military or naval service, less any indebtedness to the company hereon; unless before engaging in such service or within one month (not less than 30 days), or at the time of paying the first premium due hereon, if the insured shall then so engage, the insured shall pay to the company at its home office such extra premium as may be required by the company, and in like manner shall pay annually thereafter on each anniversary of this policy or, within one month (not less than 30 days), while the insured shall continue to be so engaged, such extra premium as may be required by the company."

Social Chatter

Business men's supper, People's church, Saturday, May 5, 25 cents.

Mrs. Adam Schmitt, 506 Liberty street, who recently underwent a successful Caesarian operation, by Dr. C. O. Parker in the St. Charles hospital, was reported improved today. The baby is also doing well.

Laugh When People Step On Your Feet

Try this yourself then pass it along to others. It works!

Quack! Quack! This kind of rough talk will be heard less here in town if people troubled with corns will follow the simple advice of this Cincinnati authority, who claims that a few drops of a drug called frezone when applied to a tender, itching corn stops soreness at once, and soon the corn dries up and lifts right out with pain. He says frezone is an ether compound which dries immediately and never inflames or even irritates the surrounding tissue or skin. A quarter of an ounce of frezone will cost very little at any drug store, but is sufficient to remove every hard or soft corn or callus from one's feet. Millions of American women will welcome this announcement since the insupportable of the high heels. Advertisement.

MUST HAVE LOST MONEY HE THOUGHT HUG COST HIM

Clara Anderson, colored, who was arrested on a charge of hugging and robbing George Suta, was found guilty last night by Police Magistrate Barlow. Suta claimed that the woman met him on the Spring street viaduct and that while hugging him took out his pocketbook, removed a rubber band he had around it, and took \$138. She left a \$10 bill in the wallet, Suta said, snatched the rubber band around it and put the change back in his pocket. He did not miss the money until he got home, he said. The woman denied the charge and said that Suta stopped her on the street. Miss Anderson, husband of the woman, arrested as a suspect, was also released.

Girl Fails to Prosecute
James McCaville, 37 years old, arrested Tuesday night at 8 o'clock on a charge of following Miss Grace Nims from the corner of Walnut and Oak streets to her home at 187 Walnut street, was fined \$5 and costs on a charge of being intoxicated. The girl did not appear against him. McCaville said on the night of his arrest that he had been drinking and did not mean to follow the girl.

ROCK RIVER CONFERENCE AT BELVIDERE OCTOBER 3

The Rock river conference of the Methodist Episcopal church, which includes Chicago and all northern Illinois within its territory, will meet in Belvidere October 3. Bishop Thomas Frohman of the Chicago area will preside. The arrangements will be announced today by the board of bishops in the various church publications.

Bishop Nicholson will also host the following conferences: Chicago, German, Columbus, Wis., August 25; Illinois, at Champaign, September 5; central Illinois, at Macomb, September 12.

Beacon News went ads make mistakes out of wishes.

HOME FOLKS TESTIFY!

MRS. MARY NEWTON, of 266 New York St., Aurora, Ill., says: "I have known about Dr. Pierce's remedies for over 20 years. At one time when in a run-down and 'tired-out' condition I used 'Golden Medical Discovery.' It helped me. I always speak well of it and would be willing to use it again."

Mrs. H. D. Jones

MRS. MARTHA E. STEAUNT, who lives at 436 State St., Quincy, Ill., says: "For quite a few years I have used Dr. Pierce's Pleasant Pellets in my family for cases of sluggish liver and constipation and I have never known an instance of griping or other unpleasant sensation. They are a mild, but efficient, liver tonic and purgative and I am glad to recommend them."

Pleasant Pellets are made up of the May-apple, also leaves and jalap.

MAN OF MISFORTUNE KILLED BY TRAIN

Louis Weller, Aged Oswego Resident, Meets Death on Burlington.

Crippled for Life Twelve Years Ago—Fell Down Aurora Store Elevator Later.

Louis Weller, 54, styled Oswego's "man of misfortune," became accident victim, which befell him, was killed by an Aurora bound Ottawa train on the Burlington this morning near the Oswego station.

Mr. Weller, who was able to get about despite he was a cripple, stopped out of the way of a freight train and into the path of the approaching passenger train. Dr. Wolchew of Oswego, county coroner, was summoned and called an inquest for 6 o'clock tonight.

Hurt in Fall.
About 12 years ago Weller was made a cripple by a fall from a load of hay. Two years ago he fell down the elevator shaft of the hardware store of Wolf & Parker in Aurora. He was confined to an Aurora hospital for months following the accident. He leaves one daughter, Mrs. Louis George, of Ne-Au-Bay.

CHILDREN SEEN MURDER

(By Associated Press Leased Wire.)
Keokuk, Iowa, May 2.—With his two children as witnesses, Daniel Merritt, 50 years old, last night beat his wife into unconsciousness with a hatchet at their home here and escaped later to return and end his own life in a room overhead by slashing his throat. Mrs. Merritt is reported to be in a critical condition at a local hospital. The man's actions are attributed to family troubles.

TALK ON MILITARY TRAINING

The meeting of West High Parent-Teacher club at West High auditorium Friday evening will be in charge of the men. The subject of the evening will be "Military Training in the High School," with talks followed by a discussion. Music will be furnished by the Aurora college quartet. As the meeting is of more than ordinary interest to all parents, a good attendance is urged.

MUSICH-HUTCHINSON

Miss Alta Hutchinson, daughter of Mr. and Mrs. William Hutchinson of Galena boulevard, and Joseph Musich were quietly married April 14 at Valparaiso, Ind. They will leave soon for Billings, Mont., where they will make their future home. The groom was formerly employed at the Western United Gas & Electric company.

Harmony Club Meeting—A special meeting of the East End Harmony club will be held Friday evening at 351 Locust street. All members are requested to be present as special business will come before the meeting.

TO RAISE PRICE OF BREAD

Another Aurora baker stated yesterday that he may have to raise the price on bread or reduce the size of his loaves unless there is a break in the price of flour soon. Like other bakers in this city he has had to pay more for flour and also lard and other ingredients used in baking. Bakers' flour in carload lots now costs \$14 a barrel and up, a well known baker said this morning.

From Forest to Fireside

GOOD furniture doesn't just happen. It is the result of a well-devised and well-executed plan. The reliable manufacturers from whom we buy our stocks plan their furniture from the time the original wood leaves the forest, and from then on the process is one of careful inspection, thorough seasoning, proper fashioning and fitting, and appropriate finishing.

It is a delight to be able to choose the needed pieces from a collection of furniture that is built on a real plan and which has one's unquestioning confidence. It is doubly agreeable to have the feeling that no excess is being paid for the faith itself. People enjoy paying full value for superior things, and those who come here buy with the certain knowledge that they are getting furniture built to a definite ideal, and the best that can be bought for the money.

DENNEY & DENNEY

Established in 1851
Twenty-nine South Broadway Aurora, Illinois

Aurora Society News

The following was taken from the "Irish World":

"For some weeks I have kept a hat box in my sewing room into which I put any shawl or cuttings. Nothing is too small or too irregular in size to use. Also any clean rags of any material or color find their way there too. On rainy days I find the children are kept amused for an hour at a time cutting the pieces into little snips. Then I let them all pretty colored pillows about fourteen inches square with these pieces. These are called by the Red Cross 'comfort pillows,' and are in great demand at the present time for use in the ambulances at the front. Such pillows would do for camping also."

"Children love to feel they are helping, and this is one way they can do something really useful yet amusing."

The Red Cross Entertainment.

Events are moving fast in connection with the minstrel performance to be given soon for the benefit of the Aurora Red Cross. A meeting will be held Friday evening for the purpose of deciding upon the date also for trying out voices for the various roles. E. W. McClave, who is directing the performance states that there is a vast amount of talent in Aurora available for an entertainment of this sort. There is one thing sure—if Aurora must do its part in getting supplies and equipment ready for the soldier boys, who will go from this city—money will be needed and it looks very much as if there was nothing to do but get under this war proposition and work.

The following committees were appointed at the regular meeting of the Red Cross shop yesterday, to aid in making a success of the minstrel performance:

General committee: Miss Jessie Farnsworth, chairman; Mrs. Frank Strossman, Mesdames Lawrence, Stevenson, and Patterson.

Decorating committee: Mrs. C. H. Wareham, chairman; Mesdames Strossman, Eichorn, Hyde, and Matheson.

Advertising and printing: Mrs. Rice, chairman; Mrs. Stolz and Mrs. Field.

Program committee: Mrs. Helen Daily, chairman.

Patron and patroness committee: Mrs. J. J. Knight, Mrs. F. T. Bell, Mrs. J. H. Ellis, Mrs. John T. Mason, Mrs. Herman A. Brennecke, and Mrs. Harry Alshuler.

Tickets: Mrs. D. D. Culver, chairman; Mrs. Peffer, Mrs. McDonald, Mrs. Hurling, Mrs. W. W. S. Fraser, chairman.

A motion was made by Mrs. Sarah Fritz and seconded by Miss Louise Aldrich that the Central committee with the chairman of other committees form the executive committee. The motion was carried. The president is a member ex officio of all committees.

The Elks Meeting.

At the regular meeting of the Aurora Lodge of Elks last evening, it was voted to appoint a committee of seven members to be appointed by the exalted ruler, to arrange for standing back of the organization of a

Red Cross Shop.

The Red Cross shop meeting was an unusually busy one yesterday afternoon, a number from Sandwich being present. The Sandwich women asked Mrs. Groom to meet with them in Sandwich to talk over plans for work in that little city. A number of men also called at the shop during the afternoon.

For Benefit of City Hospital.

Aurora will be full of entertainments for the time being, and all in causes which will appeal to every heart. It should not be forgotten that "The School for Scandal," the play which has been under way for some time by a cast from the Dramatic league, will be given at the Fox theater May 24-25. This has from the first promised to be immensely good. It will be given for the benefit of the Aurora hospital, a financial campaign for which begins May 4. As Aurora will, it would seem, have to enter the war arena, whether it wants to or not, these benefits for Red Cross and for hospital, should go with a bang, and doubtless they will.

Bright-Eyed Six Club.

The Bright-Eyed Six club met at the home of Miss Bernice Sollenberger, 105 Fifth avenue, last night. An election of officers resulted as follows: President, Miss Thelma Gridley; secretary, Miss Rose Hagner; treasurer, Miss Bernice Sollenberger. The social committee is Miss Elva. The next meeting will be held May 9 at the home of Miss Thelma Gridley, 115 South avenue.

Announce Engagement.

Mr. and Mrs. James Shaw of Walnut street announce the engagement of their daughter, Alice, to Willard Cameron Shepard of Chicago.

The Winter Picnic.

The Winter picnic met yesterday with Mrs. J. H. Hodder. Five hundred was played, Mrs. J. M. Spiker having high score. Mesdames Ira Smith and C. C. Quackenbush were guests. The club will meet in two weeks with Mrs. L. A. Constantine.

For Benefit of Dominican Sisters.

One of the most enjoyable of events was the benefit card party and food given yesterday in the pleasant home of the Dominican sisters who are in charge of Holy Angels school. It is the custom of Mrs. George Martin of the Erie road to arrange an event of this sort each year, and yesterday's party was a credit to her efforts and to those of Mrs. P. J. Goodwin who assisted her. Both five hundred and euchre were played, the five hundred score going to Mrs. Katherine Houston, the euchre score to Miss May McVicker.

The food including delicious bread, rolls, cake, fresh eggs, jellies and jam and many other things, was displayed upon the dining room table and sold rapidly. The proceeds will be used toward redecorating the residence of the sisters.

West High Parent-Teacher Club.

The meeting of the West High Parent-Teacher club Friday evening in West High auditorium promises to be most seasonable and interesting for the subject before the meeting will be "Military Training in the High Schools." The meeting will be in

charge of the men of the club. There will be one or more speakers, this to be followed by three minute discussions. Music will be furnished by the Aurora college quartet.

From California.

The S. D. Seamans family returned yesterday from California where they spent a delightful four months.

G. A. M. E. Club.

The G. A. M. E. club was entertained yesterday afternoon by Mrs. W. E. Johnson at her home in Spencer street. The afternoon was spent in sewing. Later the hostess served refreshments. In two weeks Mrs. E. Pratt of Fifth street will entertain the club.

Sterling Club.

Mrs. W. H. Young of Blackhawk street entertained the members of the Sterling club at her home yesterday afternoon. Luncheon was served at 1 o'clock with cards later, honors going to Mrs. Eurieth Knight and Mrs. Charles VanStickle.

Party for Miss Dawson.

The engagement of Miss Ethyl Dawson, daughter of Mrs. Ellen Dawson of this city, to Elwin Osmun of Oak Park, was announced at a luncheon Monday given by Mrs. C. B. Robinson of Oak Park. Miss Dawson is teaching gymnastic dancing at the Elks club in Oak Park.

For Bride-elects.

Miss Gertrude Dalden of High street entertained last evening in honor of Miss Beale Hanks and Miss Marguerite Johns. The decorations were in pink and white. At five hundred Miss Johns won high prize. Both bride-elects were given some handsome pieces of cut glass.

North Aurora Ladies' Aid.

The Ladies' Aid society of the North Aurora Congregational church was entertained yesterday afternoon by

Mrs. Samuel Graham and Mrs. Albert Beckley. The program was as follows: Piano duet, Mrs. I. E. Schneider and Theresa Meyers; reading, Kenneth Beckley; solo, Mrs. Nels Benson; piano duet, Mrs. Schneider and Miss Mary Reed; piano solo, Theresa Meyers; reading, Beatrice Graham; piano solo, Mary Reed. Later there were refreshments. The hostesses for the next meeting will be Mrs. J. P. Mitchell and Miss E. Fredendall.

St. Nicholas Card Party.

The women of St. Anne's sodality of St. Nicholas church gave the third in a series of afternoon card parties yesterday. Ten tables were filled and honors were awarded to Miss Mary Kersch, Mrs. John Glennon and Mrs. Peter Claron.

The Deaux Club.

Mrs. John K. Newhall will entertain the members of the Deaux club at her home in Garfield avenue tomorrow.

Delegates to Convention.

Delegates have been appointed from the Congregational churches of Aurora for the annual state meeting of which will be held Monday, Tuesday

and Wednesday of next week at Galesburg. Mrs. H. G. Gabel and Miss Mary Jordan have been appointed from the First church, and Mrs. Charles Harkison and James E. Fernley of the New England church.

Annual Meeting.

The annual meeting of the Ladies' guild of Trinity church will be held Monday afternoon at 2:30 o'clock in the parish house. Officers for the ensuing year will be elected. This evening event the Parish Daughters will have their annual meeting following a dinner at 6:30 o'clock. The date of the annual meeting of the women's auxiliary has not as yet been set.

Junior Prom.

The annual junior prom of East High school will be given Saturday evening in the high school gymnasium. A dinner will be served at 6:30 o'clock following by dancing. Eddie Fitzgerald's orchestra will play.

Official war correspondents set a fine example to this extent: they don't dwell much on the troubles of their own side of the conflict.

WALTERS-DAVIS

Miss May I. Davis, daughter of Mr. and Mrs. Jasper Davis of Weston avenue, and Michael E. Walters were married yesterday afternoon at 3 o'clock by the Rev. J. Schmitt, pastor of St. Joseph's church.

The attendants were Miss Veronica Marx and John Mullong. The bride and bridesmaid wore silk suits with corsage bouquets of bride's roses and white picture hats.

Mr. and Mrs. Walters left at 5 o'clock for Milwaukee, where they will make their home.

AUTO LICENSES

Secretary of State Louis Emmerson has announced that 225,000 Illinois automobiles have been licensed to date as compared with 244,429 automobiles licensed during the entire year of 1916. This assures the licensing of at least 100,000 machines in Illinois this year.

No motorist will be allowed to use an automobile after May 15 unless it has a state license tag.

This is the ultimatum of Secretary of State Emmerson and he has instructed the state automobile inspectors to report all violators and have them arrested, prosecuted and fined.

LAVALLIERES

With the coming of warm weather and summer dresses you should have dainty Lavalieres, one whose size and weight will be in keeping. We have solid gold Lavalieres with light pendants at from \$2.50 up.

Diamonds from \$5.00 up. Also cultured pearls and reconstructed rubies.

Starting Friday—Great Fashion Clearing

157 Sencenbaugh Quality Suits

As in all this store's announcements, when the word "great" is used, it has much significance. Any store can print price lists and reductions, but much depends upon the kind of store for what the price comparisons mean. And, the event comes at a time when suits are in the height of their usefulness. Every suit is a Sencenbaugh style, selected because of its elegance and true representation of fashions—because of quality in fabric and every detail of workmanship.

The Prices Are What You Would Expect in the July Clearing Sale

Quite the most attractive collection that we have ever presented is here—suits of Gunneburg, Vigoreaux, Poplin, Chamois Velour, Gabardine, Point Twill, Basket Weaves, Serges, Tweeds, Checks and Plaids. Plenty of the new high colors, as well as navy and midnight blue, black and checks. The excellence of tailoring, care in finishing and good fashion lines, together with the smartness of the styles, are features that will appeal to every well dressed woman. Sizes 14, 16 and 36 to 44 bust.

Prices on Coats Are Greatly Reduced

Exclusive Styles--Beautiful Materials--Fascinating Colors

This is the time when authoritative style information is being sought, and the assortments here gathered together splendidly answer every question in a thoroughly satisfactory and practical manner. Coat styles that stand out "different" and new, models as impressive as master designers could make them, sparing not a feature that would enhance their striking character, nor a detail that would make them more becoming, such styles you will find in this collection.

Coats of Burella

Coats of Gunneburg

Coats of Velour

Coats of Gabardine

Coats of Bolivia

Coats of Covert

Coats of Tweed Mixtures

Coats of Diagonal Cheviot

In new shades inspired by the splendor of Springtime—gold, rose, apple green, Nile green, Copenhagen or navy blue, beige, clay, cement gray, American beauty—surely there is nothing more that artist could have thought of in completing such splendid "pictures of fashion." Women and misses' sizes.

New Arrivals in White Dresses

NEW PITCHING
RECORD IS SETFred Toney Blanks Cubs Down
Without a Hit or Run in
Ten Innings.

REDS WIN BATTLE 1 TO 0

Chicago, May 2.—Hippo Vaughn, right-hander, was doctored from the beginning of yesterday's game with the Chicago-Northwestern team. He pitched the first man up, a sum sign of defeat, and the Reds trimmed him, 1 to 0, in 10 innings, during which Fred Toney shut the Cubs out with nothing that looked like a hit. Neither side struck a safe blow in nine innings and each pitcher walked two batters. Vaughn fanned 10 Reds in nine frames.

Something was bound to crack in this sort of a battle, and it happened to be the Cubs. The tenth opened with the popping out of Gus Getz, who got into the doings when H. Grob was canned in the eighth. Grob broke through the Cubs' defense in the eighth. Anybody is liable to bust a hit. Grob asked to center, and Chase would have done the same if Williams had held the ball. Grob fanned on the club, and when he did reach the ball he spilled it. Grob asked to center, and Chase would have done the same if Williams had held the ball. Grob fanned on the club, and when he did reach the ball he spilled it.

Thorp pumped a slow twister near the third base line and both Hippo and Wilson went after it. The pitcher picked up the ball and tossed to Wilson, who was looking for the throw to be made in first. Hippo had figured he could not stop Thorp and was playing for the plate. The ball bounded off Wilson's chest and Grob counted. Chase came tearing in, but Wilson scrambled after the ball and met him many feet from the rubber. Baseball history was made at this point. It was the first game in which both ball teams failed to get a hit in nine innings. A careful checking of the record books after Fred's brilliant performance disclosed the fact that neither minor league pitcher has ever pitched a no-hit game. There are several instances of extra-inning no-hit games, but no reference to a game in which both sides went hitless.

A peculiar coincidence, disclosed by the search of the records is that on May 10, 1905, eight years ago almost to the day, Toney pitched and won a 10-inning, no-hit game for Worcester against Lexington. It was this marvelous job that brought Toney to the notice of the Cubs, who gave him his first big league trial, and which disclosed the fact that neither minor league pitcher has ever pitched a no-hit game. There are several instances of extra-inning no-hit games, but no reference to a game in which both sides went hitless.

IN THE FIELD OF SPORTS

Y. M. C. A. BOWLING

The Hippo Vaughn five kept in the race in the Factory league on the Y. M. C. A. alleys, winning three straight from the Hesperus-Adams five. The Hesperus-Adams took three straight from the Hesperus Works. Blasing and Cobb of the Hesperus Works had the only 300 games of the night, 267. The Allestequip team took a forfeited match from the Cooper Brothers team.

SOX BEAT INDIANS

BY SCORE OF 8-3

Cleveland, May 2.—Making the Indians pitchers for Cleveland, the White Sox yesterday defeated Cleveland, 8 to 3. A hit and a couple of more ground out a tally in the first inning. Two screaming triples, flanked by a long fly and a base on balls, added three to the total in the fifth, and five solid blows in the sixth, including two doubles and a three-bagger, made it four more in the sixth.

Claude Williams held the enemy hitless and runless in the first three innings. Two jumpy outs tied the score in the fourth, with the final spasm of the Red Sox coming in the seventh, when three singles, an error and a sacrifice fly brought in the other two runs for the locals.

The Sox were introduced to old friend Clarence Smith, who formerly roomed under Conley's hospitable roof. Clarence pitched to three men and left a record of a double, a single and a triple. Al Gould relieved him and finished the game, Combs having essayed to stop the Sox at the start. Fritz, who has been a thorn in the side of the Sox, was hampered off the job in the fifth. In that time the Sox had found him for four hits, the total bases figuring nine. The Sox carried off three men and left a record of a double, a single and a triple.

PURDUE UNIVERSITY

ENROLL 1,000 CADETS

(By Associated Press Leased Wire.)

Indianapolis, Ind., May 2.—Indiana colleges and universities now resemble military training camps of various sizes in many respects as practically all of the schools are giving the students physical or military work in some form, which will help make better soldiers of them, should they enlist in the army. At some of the institutions the work is voluntary, at others compulsory. Several thousand young men and boys are in training. For young women, as well as some of the young men, Red Cross work has also opened up a field for activity.

The largest body of trained students is at Purdue university which has a cadet body of 1,000. Notre Dame is second with 800. Purdue is a government and grant university and military training there is compulsory. The institution is providing agricultural experts in one department, and in others is training hundreds of engineers. Students are not alone in showing a military spirit at Purdue as members of the faculty drill with them. The work given the cadets consists of rifle, bayonet and field maneuvers twice a week.

Notre Dame voluntarily has made military instruction compulsory. Eighty-five per cent of the students at the university have joined the corps and receive regular instructions in the work.

Indiana university, which only recently adopted voluntary military training, already has about 350 students drilling under a regular army officer. More than 400 cadets have enrolled in classes in Red Cross work. A part of the campus will be placed under cultivation by the students.

EXPECT GREAT CROWDS

IN THREE-EYE CITIES

(By Associated Press Leased Wire.)

Chicago, May 2.—Half holidays declared by mayors in the four cities in which opening games are to be played in the Three-Eye league today promise to bring out the largest opening day attendance in the history of the league.

The mayors declared a half holiday and urged the citizens to turn out for the games at the suggestion of President Tanager who is to donate a silver loving cup to the city drawing the largest crowd. The commercial clubs, chambers of commerce and other similar organizations in the cities have conducted a whirlwind campaign for the past 16 days in an effort to bring out record-breaking crowds.

The season opens with Rock Island playing at Rockford, Moine at Bloomington, Peoria at Hannibal, Quincy at Alton.

Outlanders—James Sheffield, "Tasty" Wright, De Benja and Ed Williams.

Look!
They're made with

CALUMET

"If you've ever tasted goodies made with Calumet Baking Powder, you won't blame a kid for being tempted! G-r-e-a-t, b-i-g, tender, tasty biscuits, cakes, doughnuts, muffins and everything I can think of—all so good I can't keep away from them!"

"Mother wouldn't think of using any Baking Powder except Calumet! She's tried all others—she knows which is best—she knows Calumet means positive, uniform results—purity in the can and purity in the baking—great economy and whole-some things to eat."

"You want bakings like mother's—then use Calumet Baking Powder."

Movie Notes

Tiny Winifred.

Winifred Allen, who will be co-featured with Jack Devereaux in "The Man Who Made Good," second Triangle picture to be completed at the new Yonkers studio, has aroused the interest of Allan Dwan by her clever work, and it is said that she will be retained for other roles under Dwan's personal supervision. Miss Allen was born in New Rochelle and after graduating from the local public schools, studied for some time at the Art Students' league. Her father was a New Englander and her mother Irish, but Winifred proudly insists that she is all Celt without a trace of the old Puritanic blood of her paternal ancestors. Both of her parents died while she was still in school, and she and her sister took a studio together in New York. Work was now a stern necessity, so her modelling board and clay were regrettably put aside, and Winifred sought an engagement as a motion picture actress.

Rapidly winning promotion, it was not long before she was intrusted with important roles. Before joining the Triangle forces, she had played opposite William Elliott in "When We Were Twenty-One," with Jack Pickford in "Seventeen," and with Lou Tellegen in "The Long Trail."

Winifred Allen is one of the smallest leading women now appearing on the screen. She stands four feet, 11 inches in high heeled shoes, and tips the beam at 100 pounds in her turn. She is a brunette of vivid coloring and sparkling hazel eyes. Her director also declares that she possesses a natural aptitude for motion picture acting which should carry her into general favor.

Unless a Style Is Practical, It Is Useless

THE sensible man realizes to the fullest extent while style is the first feature thought of in connection with clothes, it might be very well be the last, for unless a style is practical and lends itself easily to the needs of the individual, it is absolutely a failure.

Men want to be smartly dressed, but they also want to be comfortably dressed and sensibly dressed. They want to feel well and appear dignified in the clothes they wear

In all our suits for young men the element of usefulness has been given first consideration. While every style is as far beyond criticism as it could possibly be, it has been adapted in the nicest way to the requirements of thoughtful successful young men.
